

Assurance of Student Learning Reflection 2024-2025	
CHHS	Social Work
Trauma and Resilience Graduate Certificate #1787	
Dr. Dana Sullivan	
<i>Is this an online program?</i> ☒ Yes ☐ No	Please make sure the Program Learning Outcomes listed match those in CourseLeaf. Indicate verification here ☒ Yes, they match! (If they don't match, explain on this page under Evaluation)

Program Student Learning Outcome 1	
Program Student Learning Outcome	Gain knowledge of the effects of trauma on all levels of client systems.
Evaluation	80% of students will score a score of 3 or better on the rubric section addressing effects of trauma on all levels of client systems. This is the first assessment cycle for the program. The instructor for this course was teaching it for the first time in Spring 2025. Due to VSIP, the creator of the course was not available for consultation. The instructor informed me after the semester ended that they did not have the rubric needed to collect these scores. Therefore, I am basing this report on the total score of the assignment and examining the percentage that scored above a 70%. I will work with future instructors of the course to ensure the rubric is available. 20 of 23 students (87%) met the criteria for this outcome.
Measurement Instruments	E-portfolio/assignment rubric-SWRK 681 Trauma Special Topics PowerPoint Presentation As this is the first assessment cycle, we will continue to use this measure and work with the instructor to ensure the rubric is available. We will discuss these findings and examine any other measures that may better align with our SLOs.
Criteria & Targets	80% of students will score a score of 3 or better on the rubric section addressing effects of trauma on all levels of client systems. 100% of the students were assessed. This criteria for success was successful as 87% of the students achieved the benchmark.
Results & Conclusion	<u>Results:</u> The results were expected and the students exceeded the target goal. <u>Conclusions:</u> The targets were met during AY 24-25.
<u>**IMPORTANT - Plans for Next Assessment Cycle:</u>	We will continue to assess our measure to ensure that SLOs are being adequately measured as we continue with Year 2 of the certificate.

Program Student Learning Outcome 2	
Program Student Learning Outcome	Assess the impact of trauma on client systems.
Evaluation	80% of students will score a 3 or better on the rubric section addressing impact of trauma on client systems. This is the first assessment cycle for the program. The instructor for this course was teaching it for the first time in Spring 2025. Due to VSIP, the creator of the course was not available for consultation. The instructor informed me after the semester ended that they did not have the rubric needed to collect these scores. Therefore, I am basing this report on the total score of the assignment and examining the percentage that scored above a 70%. I will work with future instructors of the course to ensure the rubric is available. 20 of 23 students (91%) met the criteria for this outcome.
Measurement Instruments	E-portfolio/assignment rubric-SWRK 681 Trauma Treatment Plan
Criteria & Targets	80% of students will score a score of 3 or better on the rubric section addressing effects of trauma on all levels of client systems. 100% of the students were assessed. This criteria for success was successful as 91% of the students achieved the benchmark.
Results & Conclusion	Results: The results were expected and the students exceeded the target goal. Conclusions: The targets were met during AY 24-25.
<u>**IMPORTANT - Plans for Next Assessment Cycle:</u>	We will continue to assess our measure to ensure that SLOs are being adequately measured as we continue with Year 2 of the certificate.

Program Student Learning Outcome 3	
Program Student Learning Outcome	Evaluate evidence-based practices used to promote resilience in response to trauma.
Evaluation	80% of students will score a 3 or better on the rubric section addressing resilience. This measure is still relevant and will continue to be utilized in AY 25-26.
Measurement Instruments	E-portfolio/assignment rubric-SWRK 572 – Literature Review/Identification of Evidence-Based Practices
Criteria & Targets	80% of students will score a 3 or better on the rubric section addressing resilience.
Results & Conclusion	Results: 96% of students scored a 3 or better on this section of the rubric. The results were expected and the students exceeded the target goal.

	<u>Conclusions:</u> We will continue to assess our measure to ensure that SLOs are being adequately measured as we continue with Year 2 of the certificate.
<u>**IMPORTANT - Plans for Next Assessment Cycle:</u>	We will continue to assess our measure to ensure that SLOs are being adequately measured as we continue with Year 2 of the certificate.
